CAFÉ

BEAN TO CUP

Bean to Cup coffee machines are ideal if you're looking for the freshest possible coffee at the touch of a button and an authentic coffee drinking experience. Krogab Café have a range of Bean to Cup coffee machines to cater for a variety of environments including hotels, coffee shops, restaurants and conference and event facilities. Our commercial bean-to-cup coffee machines are available to service rent or buy with plans to suit businesses of any size! All our machines have been picked with convenience and consistent quality in mind, so you can provide your customers with their favourite drink just how they like it, when they like it.

ESPRECIOUS

The Bravilor Esprecious is a fully automatic espresso machine. It prepares all coffee specialties such as coffee crème, café au lait and cappuccino, using freshly ground beans. It produces a superb cup of coffee, is easy to use and maintain and looks great on any back bar whilst having the benefit of a small footprint.

FEATURES

- Intuitive touchscreen control for easy operation.
- Double dispensing outlet for serving two cups simultaneously.
- Automatic rinsing system to optimise the in-cup quality.
- Day/cumulative counter data for exporting into a spreadsheet.
- Separate hot water tap for tea and soup.
- Unique hot water system to reduce scaling.
- Video, audio and image possibilities to advertise/communicate on the touchscreen display.
- Serve 2 cups of Espresso in 33seconds!

Height:	Width:	Depth:	Throughput per hour:	Power Rating:	Weight:
660mm	335mm	570mm	80 - 100 cups (Cafe Creme)	230v - 50/60Hz, 2250W	29.5 kg

ESPRECIOUS FRESHMILK

The FreshMilk has been specially designed to accompany the Esprecious espresso machine. The Bravilor Bonamat cooling system keeps the milk at a constant 4 degrees. The whipping process of fresh cold milk, steam and air creates milk foam of superb quality. Like the Esprecious, the FreshMilk is controlled by the intuitive touchscreen. Daily cleaning and rinsing activities are selected via the same touchscreen. People increasingly want to enjoy coffee to the full; fresh milk contributes significantly to the ultimate coffee experience.

FEATURES

- As above for the Esprecious but also includes the following:
- Suitable for high demand when fitted with the 7 litre container (available as accessory)
- Constant milk volume at constant temperature
- Settings adjustable via the touchscreen
- Foam layer as light as air thanks to the perfect balance of milk, steam and air
- Separate outlet for milk
- NSF certified; high quality standards for hygiene
- The unit is lockable

Height:	Width:	Depth:	Capacity per hour:	Power Rating:	Weight:
660mm	570-620mm	570mm	73 cups (120 cc) (Café Crème)	230V~ 50/60Hz Max. 2300W	Approx. 60kg (empty)

WMF 1100 S

Simply anyone can select and prepare the most sumptuous coffee and chocolate beverages via the large touch screen, even without previous experience. The 1100 offers a fantastic variety of speciality coffees reliably and daily. It also works quietly thanks to its separate grinders. Professional technology enables the use of fresh milk: hot, foamed and fully automatic.

FEATURES

- Intuitive touch display - with its vertical swipe function, the intuitive service design of the 7 inch touch display enables quick and purposeful guidance through the various menus
- Easy cleaning - with the patented Click&Clean function, the milk system is easy to clean.
- Compactness - thanks to its compact dimensions, the WMF 1100 S fits under standard kitchen units problem-free.
- Illumination - standard illumination directs the control hub and flashes when actions such as coffee bean refills are required.
- SteamJet - the patented Steamjet gets every cup to the perfect temperature in seconds.

Height:	Width:	Depth:	Capacity Volume:	Power Rating:	Weight:
460-500mm	325mm	561mm	80 cups (size dependant)	1.9-2.3 kW/230 V	25.5 kg (empty)

WMF 1500 S Classic

The 1500 S Classic is designed to perform in catering establishments with a low to medium demand for coffee, for example hotel breakfast buffets, dessert shops or bistros. Regardless of the location, the WMF 1500 S Classic is particularly easy to operate for all users. It offers a wide choice of speciality coffees, consistent quality, space-saving design, reliability, easy operation and great value for money.

FEATURES

- Large touchscreen display with a clear menu. 'The digital manual' is self-explanatory and displays automatic notifications on the machine's current activity
- The cleaning functions are designed to work perfectly in tandem with one another. Simple, fast and automatic, reducing daily tasks to a minimum
- The impressive slender design makes room for extra coffee machines & accessories.
- The illuminated side panels flash when attention is required (for example if the coffee beans need replenishing).
- Basic maintenance tasks can easily be carried out by yourself, making your machine a rare sight for the WMF service technician.
- Machine is available with integrated fresh water tank holding 4 litres or constant water supply with drip tray drainage.

Height:	Width:	Depth:	Capacity per hour:	Power Rating:	Weight:
675mm	325mm (not incl. milk fridge)	590mm	180 cups (size dependant)	2.75-3.25 kW / 220-240 V	approx. 35 kg (empty)

WMF 5000 S +

WMF have developed a machine that packs the performance capacity of a large, fully-automated coffee machine, but which keeps its slim, sleek appearance. With the WMF 5000 S +, you get a machine that not only makes fantastic coffee, but that also produces consistently high quality coffee, faster. The machine benefits, from a heavy-duty, stainless steel brewer that is generally only used in larger coffee machines, as well as the Dynamic Milk system, which prepares hot and cold milk, and hot and cold milk foam – fully automated through the beverage spout.

FEATURES

- The new cleaning process "Clean in Place" ensures time-saving HACCP-compliant cleaning and is the ultimate in user friendly efficiency.
- The WMF SteamJet warms every cup in a matter of seconds. So every drink is not only served at the ideal temperature but also remains hot for longer, for true coffee indulgence.
- With its impressively sleek dimensions, this head-turner makes room for additional coffee machines or exciting accessories.
- Large, removable, lockable product hoppers which are easy to clean
- You can take advantage of the Eco Mode settings to reduce energy consumption during periods of light use.
